

Preface

"DEVELOP SIGHTREADING" establishes itself as a vital contribution in music literature. This study material, technical in nature is indispensable for it stimulates, coordinates, and stabilizes one's mental and physical reflexes.

These writings present an adventurous challenge into the land of musical and technical intrigue.

A strand of musical genius is weaved throughout these musical passages of unusual originality. By tuning one's thoughts towards a grouping of phrases expressing each phrase as a beautiful musical thought, one will respond to the inspirational beauty that the authors so cleverly highlighted.

Two of the MUSIC WORLD'S most respected artist-performers and teachers GASTON DUFRESNE and ROGER LOUJS VOISIN, members of the BOSTON SYMPHONY ORCHESTRA, also faculty members of the NEW ENGLAND CONSERVATORY of MUSIC, Boston, Massachusetts and the BERKSHIRE MUSIC CENTER are credited with this work.

An unprecedented rise to musical fame came to GASTON DUFRESNE after receiving the highest honors ever awarded at the NATIONAL CONSERVATORY in FRANCE. MR. DUFRESNE has contributed many fruitful years to the world's greatest music, from the CONCERTS COLONNE in PARIS, to the CHICAGO SYMPHONY and is presently one of the senior members of the BOSTON SYMPHONY ORCHESTRA.

The editor and consultant advisor, ROGER LOUIS VOISIN'S family tradition stems back for generations in the WHO'S WHO IN THE MUSIC WORLD. MR.
